You need to install the ISE WebPACK Edition.

You also need to get a license for the program.

Create an account and generate a webpack license (<http://www.xilinx.com/getlicense>.)

Download the generated license file and copy it to local .Xilinx directory.

What is the difference between a floating and a node license??

You may encounter some problems with running the program.

You can try to run either 32/64 bit versions of the program if program crashes while opening a new project or creating testbench file.

You can also run program as administrator to prevent read only problem.
