

EEM 336 Microprocessors I

Lab Rules

Lab Sessions

1. You are expected to implement the task given in the manual before the session. Lab session is not for coding, it is for demonstrating your work to the instructors.
2. Your performance will be graded based on your understanding of your code. It is obvious when a student uses their friend's code, and this will be graded harshly.
3. There will be a quiz exam before every lab and you need to get at least 5 points (out of 10) to attend the lab session. (If you fail 3 exams you wont be able to attend following lab sessions)
4. You will not be allowed to attend the lab session without your board.
5. Don't be late. Students will not accepted to the laboratory after 15 minutes.
6. **At the beginning of the lab session, join the Zoom link provided in the course page on the department website. There will be multiple breakout rooms, join the one with your number on its name. To find out your number, see the lab list provided on the course page of the department website.**

Other

1. You are responsible for the safety of the board given to you. You are expected to replace it if you damage it or lose it. There will be serious consequences if you fail to do so.
2. Read about electrostatic discharge (ESD) and how to avoid it.
3. Check the course page on the department website for announcements regularly. We will not be using Mergen for communications.
